

 COMP 3123 Assignment –
II Frontend (12%)

ASSIGNMENT

Copy ▾

Evaluation Criteria

- **Part I (10%):** Successful deployment of the backend or creation of a Docker Compose file or on any cloud platform. Failure to do so results in a zero.
- **Part II (80%):** Each correctly implemented screen must follow professional design standards. Errors or incomplete features will result in a zero.
- **GitHub Repository (10%):** Proper naming conventions and valid commits are essential. Failure to submit the repository correctly will result in a zero.
- **Validation:** Ensure that your application displays appropriate error messages for all validations.

Sr. No.	Component
